Herd Management Areas and Herd Areas have been placed in separate tables by state.

Herd Area statistics are a reflection of each state's current population information as of February 29, 2004.

Populations do not reflect any changes after February, 2004. (i.e. foal crops or gathers).

BLM policy is to establish AML as a range with upper and lower levels, the numbers displayed represent the upper limit.

Gather MO/YEAR is based on 10 or more animals removed during the month.

Acres are being recalculated with GIS and will be displayed in next year's information.
